By downloading the Font Software you, the user, acknowledge that you have read, understood, and agreed to be bound by the terms and conditions of the Lettermin Web Font License Agreement, also called the Lettermin End-User License Agreement.

## 1. Definitions

Whenever used in this Agreement with an initial capital letter, the terms defined below, whether used in the singular of the plural, will have the following meanings:

“Lettermin” is defined as Lettermin d.o.o., Cesta na Brdo 60, SI-1000 Ljubljana, Europe.

“You”, “Your” and “End User” mean the customer, whether an individual, company, or organisation, who has purchased a license to use the Font. An End User does not include distributors, resellers, dealers, sub-licensees, original equipment manufacturers (“OEM”), wholesale buyers, or similar entities. Lettermin fonts and products may not be distributed or sold to third parties without prior written consent from Lettermin.

“EULA”, “Agreement”, “License” means this Lettermin Web Font License Agreement.

“Font”, “Fonts”, or “Font Software” have identical meanings and mean the designs of the fonts and the software identified on Your Sales Receipt that produces a typeface design(s) together with any other artworks that may be associated with the font.

A “Web Font” is typeface Font software that has been created, optimised, translated or otherwise specially modified for use on the Internet for styling or viewing text on a Website.

The “Domain” is the host name of a website’s home page. The Domain may be comprised of one unique second-level Domain name (as in “example” of <http://www.example.com>), multiple top-level Domains (as in .com, .org, .si, etc.), and multiple sub-domains (as in “shop” of [shop.example.com](http://shop.example.com), or “blog” of [blog.example.com](http://blog.example.com), etc.). Under this License you must own the Domain and control the content of the licensed websites.

A “website” is defined as a collection of related web pages organised under a single Domain. The website may be viewed with a web browser and/or via a web-based mobile app provided that the Web Fonts are not included or embedded as explained in sections 4 and 7.

A “pageview” is one request for the viewing of a page of your website.

A “Unique User” is an individual visitor to Your Website.

“Sales Receipt” means the electronic document You receive as confirmation of the Fonts purchased.

## 2. Permitted uses and restrictions

The Font Software will be transmitted for your use in the WOFF2 format. It is strictly forbidden to use the Font Software in other formats than provided by Lettermin. Lettermin reserves the right to include or omit additional formats at its discretion in the future. You may not link to the full, CFF OpenType or TrueType font designed for desktop installation. You must include the entire commented header in the provided CSS file.

Viewing and printing pages of the website using the Web Fonts is allowed. However, providing the ability for a remote user to edit text using the Web Fonts is not allowed if the result is a new document, such as a personalised invitation, greeting card, customised portfolio or customised product. The Web Fonts are licensed for your use only. You may not use the Web Fonts as a tool or resource

This sections defines the expressions used throughout this EULA.

This means we will provide the fonts in the most appropriate format for use in all common browsers and you can't use any other formats. Viewing and printing pages of the website is allowed, but if your site offers a method for creating customised products, physical or otherwise, you may need to upgrade your license.

for third parties to create customised products or documents.

*\*If the font file itself won't be embedded in the website (for example, when the font is used in a static graphic image such as a logo) you should purchase a Desktop Font License instead.*

## 2.2 Domain and hosting

Lettermin Web Fonts are specifically created for self-hosting. Hosting the Web Fonts through third-party services or platforms is strictly prohibited.

The Lettermin Web Font License Agreement permits use of the Web Fonts on an unlimited number of Domains and subdomains, provided that the total cumulative traffic across all websites using the Web Fonts does not exceed the licensed pageview tier specified on your Sales Receipt.

You agree to take all reasonable and appropriate technical measures to ensure that the Web Fonts are used solely for the purpose of styling text on your websites. This includes, but is not limited to, preventing unauthorized third-party access (such as hot-linking) and disallowing direct download or access to the Web Fonts outside of normal Web Font delivery for text rendering.

You are not permitted to redirect, sublicense, or otherwise use the Font Software for the benefit of unlicensed third parties. If the Font Software is used in the creation or operation of a third-party website, either you or the third party must purchase an appropriate Web Font License and ensure that the End User is properly licensed for such use.

## 2.3 Pageview limitations

The licensed usage is limited by cumulative monthly page views across all websites on which the Web Fonts are used. Monthly traffic is measured as the average number of page views over three (3) consecutive months.

If the cumulative average monthly page views exceed the amount specified on your Sales Receipt, you must purchase a license upgrade corresponding to the higher pageview tier before continuing such use.

## 2.4 Fixed terms

The terms and price associated with this License are based upon the number of Domains and maximum pageviews.

If you anticipate an increase in traffic or an increase in the number of Domains you should notify Lettermin as early as possible. You are not entitled to a refund, offset or other adjustment in the event of a reduction in the number of Domains or a reduction in traffic, irrespective of the reasons.

## 2.5 Web usage only

Web Fonts are only and exclusively to be used for displaying text on a website via the CSS @font-face rule. It is prohibited to embed the Font Software in any documents (for example in PDF documents) other than your website, and it is also prohibited to use the Font Software for other services that are rendering the fonts. You may not use the Web Fonts for ancillary or derived products.

The use of Lettermin Web Fonts on a desktop, laptop, workstation, or for any purpose not expressly permitted by this License is prohibited.

This License expressly prohibits embedding the Font Software into electronic books, game playing devices, gaming or gambling devices, or using the fonts in exhibition or display in cinemas, motion pictures, on television or on cable television, or as part of any works broadcast or transmitted on the Internet.

This License also expressly prohibits the embedding, inclusion, calling or linking of the Font Software within hardware and software in any form whatsoever. This includes, but is not limited to, video games, server-side applications, online document creation, mobile apps and OEM products or software.

If You wish to use the Web Fonts in a manner not permitted by this License, a separate license must be obtained by contacting Lettermin directly.

This means only self-hosting is allowed and the license is only valid for the number of Domains shown on your receipt.

These fonts are licensed for your use. You may not share the usage with others. Specifically, you are not allowed to use these fonts on your server as a de facto Web Font hosting service for others.

This means upgrades are available anytime, but licenses are non-refundable if your usage is lower than licensed.

This means your total website traffic must not exceed the pageview limit on your Sales Receipt. If it does, you must purchase an upgrade. An unlimited license is also available.

This means Web Fonts may only be used to display text on your website. You cannot embed them in PDFs, ebooks, apps, games, or any other software or hardware, and you cannot use them in video, film, television, streaming, or broadcasting. Use in desktop design software also requires a separate Desktop Font License. Contact Lettermin if you need fonts for any of these purposes.

## 2.6 Provision to Third Parties

You may temporarily provide the Web Font to a website developer, agent or independent contractor, who is working on your behalf, ONLY IF the developer, agent or independent contractor agrees in writing to use the Font exclusively for your work, according to the terms of this EULA, and retains no copies of the Font upon completion of the work.

This means that you can let a contractor use the fonts when they are working on your behalf but they must delete them after finishing the job.

## 2.7 Transfer

You may transfer this License Agreement and the rights granted under it to another person or organization only with prior written permission from Lettermin. Any transfer is subject to the condition that the new licensee agrees in writing to be bound by all terms of this License Agreement.

This means that you may transfer the license only with prior written permission from Lettermin, and only if the new licensee agrees to the terms. After transfer, you must delete all copies of the fonts and stop using them. Any other transfer or distribution is not allowed.

Upon completion of an approved transfer, you must permanently delete all copies of the Font Software and its documentation from your systems and cease all use of the Fonts.

Except for transfers expressly permitted under this section, you may not sublicense, sell, lease, rent, lend, or otherwise distribute the Font Software or its documentation to any third party. Any rights not expressly granted under this License are reserved by Lettermin.

Except as otherwise expressly permitted herein, you agree not to copy the Font Software or create derivative works based on the design of the Fonts or the Font Software.

## 3. Modifications

You may not modify, adapt, translate, reformat, reverse engineer, decompile, disassemble, alter or otherwise copy the Lettermin Font Software or the designs embodied therein, except as may be otherwise expressly permitted in this Agreement or by a separate written contract.

This means that you can't modify or reverse engineer the fonts.

## 4. Back-up copies

You are permitted to make a reasonable number of back-up copies suitable for your usage. You agree to retain exclusive custody and control over any such copy. The unauthorised sharing, lending, renting, sale, or other unauthorised use or misuse of a back-up copy is a material breach of this Agreement and will result in the immediate termination of this License.

This means that you can back up the font data, but you may not give or lend copies to other people.

The use of any trademark as herein authorised does not give you any rights on or to intellectual property rights in the Font Software, the documentation, and any associated trademarks.

This means that the fonts are copyrighted and protected by copyright, trademark, design and other applicable laws. This means that by buying the license you only buy the right to use the fonts and only in ways specified in this license. The fonts themselves remain the exclusive property of Lettermin.

All rights not expressly granted under this License are reserved to Lettermin.

Under no circumstances will Lettermin’s liability exceed the substitution or the replacement cost of the Font Software, whichever is less and at the sole discretion of Lettermin.

This means that we don't provide any warranty and we can't guarantee that the fonts will be appropriate for your projects.
